VOLUME 1.

WASHINGTON CITY, WEDNESDAY NIGHT, SEPTEMBER 10, 1845.

Many forfeitures are about to accrue, from failure to pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I require, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take a contingent interest in the lands for attention and services.

ROBERT D. JOHNSON.

Galveston, August 7, 1845. Many forfeitures are about to accrue,

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They care with astonishing rapidity rheuthatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious mitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

I HIS preparation is particularly recommended to
persons of weak habit, and to such as reside in
low situations, where the nervous system is, in general, more or less relaxed. The addition of certain ingredients has so completely diaguised the taste of
the bark, as to render the siftencious remedy, a most
palatable cordial; thus peculiarly adapting it to conquer that repugnance which most persons experience after taking for some time bitter potions, as it
combines the greatest efficacy with a highly agreeable flavor. As a preventive of the ague it has
superseded the use of all other remedies, in such
parts of the country as it is known. Prepared only
